OCCIDENT AND ORIENT.

A Route to be Surveyed for the Canadian-Australian Steamship Mail Service.

A Submarine Cable Service Also to be Carried Out—The System to be Adopted.

Ottawa, June 1—It is announced today that the Lords Commissioners of the Admiralty have sanctioned the employment of Her Majesty's ship, Egria to survey a route for the mail steamers, and for the laying of a submarine cable between British Columbia and Australia. The survey is likely to occupy three years. It will cover an expanse of water two hundred miles wide for the entire distance. It is impossible to describe the precise route, but it will commence from some point on the east coast of Australia and proceed via the extreme northern coast of New Zealand, thence to British Columbia, passing the Fiji Islands and connecting at Vancouver with the Canadian Pacific Railroad.

CABLE NEWS.

LEPROSY SPREADING.

St. Petersburg, May 30—Leprosy is spreading at a dreadful rate in Russia. Thirty cases have been officially reported in Darfat alone.

IRISHMEN AND THE CHURCH.

London, May 31—The meeting of Ireland's bishops, and the resolutions and addresses to the faithful which they adopted, seems to have produced a feeling of the deepest satisfaction throughout Ireland and convey assurances of a comforting nature to those who were dismayed at the prospect of opposing both the government and their church. It is indeed a timely act, and one which will bind again the wavering heart of Catholics to the authority of the church of Rome. The act was a necessary one, also, for doubtless Rome was in danger of losing, to a great degree, her influence upon Irishmen especially, and in extension of the power she always exercises of the various members of the Catholic world, who saw a papal decree calmly discussed and made the subject of protests.

A hundred farmers of Kerry, encouraged by the papal decree, have began to buy turf from the bog at Ahabeg, belonging to landlord Hussey, who has been boycotted for four years.

JOHN BRIGHT'S CONDITION.

London, May 31—Mr. Bright has had a slight relapse and to-day is worse though not so bad as he has been. The Queen sent a message of sympathy to Mr. Bright to-day and expressed her wishes for his recovery.

BRIGHT AND STRONGER.

Berlin, June 1—The Emperor started for Potsdam to-day on the yacht Alexandria. He appeared to be bright and slightly stronger.

A PERSISTENT LOVER FAILED.

London, June 1—Lord James Douglas, the Marquis of Queensbury's brother, whose suit was rejected by Mabel, daughter of Lady Scott, has been sent to prison for contempt of court, he having persisted in his attentions although warned to desist by the court.

THE OAKES STAKES.

London, June 1—Seabreeze won the Oakes Stakes to-day; Rado second, Belle Mahone third.

Defences of Puget Sound.

The Port Townsend *Argus* is not in love with Cleveland's administration, which it claims has neither enterprise nor energy. The President and every secretary sit quietly by and allow a concentration of all the specie in the national treasury, vetoing all bills for internal improvement, counselling against all expenditures for defenses, running the government on a little four-by-six-plan, as though it were not richer nor greater than Algiers or Peru, and then begging the country for re-election.

Fire Insurance.

The Board of Fire Underwriters in this city have made an important concession to the city of Vancouver. It is stated that owing to the representations of Mr. Montross, of the Montross Roofing Co., Toronto, they have agreed to allow a reduction of one-half of one per cent. on all sawmills and other isolated buildings that are roofed with metallic roofing. In a few months, when the water works service is in operation rates will be greatly reduced and insurance taken freely by all companies.

The Star Mine.

Mr. R. A. Richardson, mettalurgist, left San Francisco to-day for Victoria. He will manage the new mill to be erected at the Star mine, Nicola, owned by Geo. Henderson and W. D. Patterson. The machinery for the mill is also on the Mexico, and will be transhipped at Vancouver to the C. P. R. It is expected that the machinery will be in operation within sixty days from date. It comprises a Roller mill with Triumph concentrators and will have a capacity of ten or fifteen tons per day.

Funeral of Mrs. Lovett.

The mortal remains of Catherine, relict of the late Joseph Lovett, were consigned to their last resting place in Ross Bay Cemetary this afternoon. A large concourse of sorrowing friends paid their last tribute of respect to the deceased. The casket was covered with beautiful flowers. Rev. Donald Fraser officiated at the residence and at the cemetary. The pall-bearers were R. Roberts, F. Campbell, T. J. Burnes, F. G. Richards, Sr., Ald. S. L. Kelly and C. Gliesselman.

Mammoth Strawberries.

The strawberry season is now upon us. The first of the mammoths were left at THE TIMES office on Thursday by Mr. H. Burkholder of Chatham street. They were of the Sharpless variety and a tooth-some richly flavored variety it is. The vines were supplied him last fall from Toronto by Mr. Wyman Clark. The vines are loaded with this valuable berry. While the flavor was good the size was enormous.

Upwards of 800 wagons have, so far this year, been shipped from the works of the Chatham Manufacturing Co. One wagon went to the Fiji Islands, another to New Zealand and two to Buenos Ayres.

TUPPER SAYS FAREWELL.

A Long Career in the Service of His Country—Characteristic Letter.

In the course of his farewell letter to his Cumberland, Nova Scotia, constituents, Sir Charles Tupper writes thus: On the 22nd of May, 1855, thirty-three years ago to-day, you first did me the honor of electing me as your representative in the Legislature of Nova Scotia. At every election since that date, when I have asked for your suffrages, you have faithfully and generously awarded me the renewal of your confidence; and I still hold your mandate to represent you in the House of Commons until 1892. You have thus enabled me to make the proud boast that the electors of my native county, who have known me from childhood, have chosen me continuously as their representative for no less than thirty-seven years.

In 1885 the Government of the Dominion required my services in London as High Commissioner for Canada. I resigned the trust committed to me into your hands, and with unswerving loyalty to the principles I represent and to the traditions you yourselves established, you elected my friend, the present Judge Townshend, to serve you for the remainder of the parliamentary term.

On the eve of the general election of 1887 the Prime Minister requested me to resign my position as High Commissioner and re-enter the Cabinet, and as I received unanimously signed requisitions from every section of the county of Cumberland I again placed myself in the hands of my old friends. My confidence in your support was justified, and on the last occasion, by a majority of between 1,400 and 1,500, you elected me triumphantly for the fourteenth time.

Once more in the exigencies of the public affairs of the country it has become necessary for me to address you in terms of thankfulness and of farewell. The Government have considered it of great importance that I should resume the position of High Commissioner for Canada in London; and I am again obliged to sever my connection with the county of Cumberland by resigning my seat in Parliament. Those among you who have followed my political life, and those especially who have shared my political opinions, and taken part in the contests of more than a quarter of a century, will know how deeply I regret that urgent public business compels me to abandon the parliamentary career to which I have so long devoted myself, not, I trust, without advantage to the country. In closing his letter Sir Charles expresses the hope that the electors of Cumberland will remain true to their traditions of the past and the principles they have so long adhered to by electing as his successor a person in political affinity with the party with which he has been associated so long.

Aquatic Notes.

There is considerable talk in San Francisco over a prospective boat race between James Seeley, formerly of this city, and Leander Stevenson of the Bay City. The latter says he is willing to meet Seeley on any waters in the world where the two boats can pass.

Charles Bush of this city says Seeley need not go to San Francisco for a race. Bush is willing to row Seeley for any amount.

Hanlan has been beaten four times in Australia, three times by William Beach, and once by Kemp. Hanlan's victories in Australia were over Clifford and Laycock. Kemp is a native Australian, having been born by the Hawkesbury river, near Windsor, Australia, November 15, 1853. He stands 5 feet 9 inches, and on the occasion of his race with George Bubear, in 1886, he weighed 164 pounds. He first figured in sculling races about eight years ago, one of his first essays being a race in skiffs with Erdnow, a native sculler of merit. In July, 1884, Kemp met and defeated George Solomon in a skiff race for £50 a side on the Windsor river, Australia. His first match of any importance was with Neil Matterson, who easily defeated Kemp, October 19, 1884, in a 3¼ mile race for £200 a side over the Nepean river, near Sydney, N.S.W. Kemp visited England in 1886, in company with William Beach, and immediately upon arriving issued a challenge to row any man in Great Britain. George Perkins was matched against him for £100 a side, and the race was rowed on July 24th over the Thames course, Perkins winning with the greatest of ease. A match was soon after made for a race with George Babear for £100 a side, and once more the Australian was defeated. Not being satisfied with the result of this race with Bubear, Kemp issued another challenge to row the ex-champion for £200 a side, and the race came off September 21, 1886, Bubear again winning by two lengths, after easing up for the last part of the contest. Since his last contest with Bubear Kemp has beaten Matterson and Clifford in Australia.

Marine Notes.

Steamer Karluck from Alaska, arrived in Port Townsend on Thursday.

Information reached Port Townsend on Wednesday that the crew of the ship Silverdale, bound from Port Discovery for Melbourne, had mutined off Cape Flattery. They anchored the ship in a dangerous position, where she lay for two days.

The ill-fated schooner Edward W. Webster arrived at Port Townsend on Wednesday, 212 days from Gloucester, Mass. Capt. Jacobs said it was reasonable to suppose that her troubles had ended when she reached the Golden Gate, but when she came into port she was minus her flying jibboom, flying jib, billet-head and cut-water and had her mainmast sprung. Although all the vessels that have recently came up the coast have found comparatively clear weather, it was the Webster's ill-luck to encounter heavy gales off the mouth of the Columbia river while only three days out from San Francisco. Her Jonah evidently followed her into the straits, as she loitered below Point Wilson two days without being able to catch breeze sufficient to take her in. The Webster is a fine-looking little vessel, and everybody here heartily join in the hope of Captain Jacobs and the Gloucester fishermen that her misfortunes are at an end, and as she will hereafter hail from the sun-kissed shores of Puget Sound, that a more lucky star may guide her.

On the Rocks.

The steam tug Pioneer, Capt. Smith, ran on the rocks in the inner harbor at 5:45 this morning. Capt. T. Harmon went out to the steamer this afternoon. The Bonanza and a number of scows were placed alongside the steamer, and it is expected that she will float at 9 o'clock this evening. The damage to the bottom of the vessel will be slight.

AMERICAN DISPATCHES

General Sheridan Raised to the Title of Lieut. General of the American Army.

Deranged and Drowned—A Train is Badly Telescoped—General Birge is Dead.

LIEUT.-GEN. SHERIDAN.

Washington, June 1—The House today passed the Senate bill to revive the rank of "General of the Army" for the benefit of General Sheridan.

2:40 p. m.—The Senate confirmed the appointment of Lieut.-General Sheridan to be General, and dispatched a messenger to the President notifying him of the Senate's action.

The President has just signed the bill to revive the rank of General of the Army and sent the nomination of Philip H. Sheridan to the Senate for that position.

NO CHANGE YET.

Washington, 9 a.m. June 1—No change in General Sheridan's condition. He remains very feeble.

U. S. METHODISTS.

New York, May 30—The Methodist Conference to-day passed a resolution to the effect that after this general conference a preacher may be appointed to a charge which he has not served for the three years preceeding, and be continued thereafter in said charge for five years, and the pastor now serving a charge which he has not served for the three years preceeding his present pastorate may be continued through for a term of five years. In all other cases the rule of five years in ten shall be strictly applied. The report on temporal economy providing for the better care of superannuated ministers was adopted. Rev. D. D. P. Kidder was made honorary secretary of the board of education. Omaha was the place of meeting for the next general conference and a committee of seven was appointed to confer with the Omaha church. It was decided that during the months of October or November in 1890, that an election be held in the various churches throughout the United States; that each member over twenty-one years of age be given a vote relative to the admission of women as lay delegates, the result to be sent to the annual conference in 1891.

THE SANTA FE PLAN.

San Francisco, May 30—The fast overland freight scheme of the Atchison, Topeka & Santa Fe, announced from New York, is regarded by competitors of the Santa Fe system here as a serious matter. The plan is for the Santa Fe system to form traffic arrangements with certain eastern lines whereby freight will be carried from New York to the Pacific Coast in eight days.

A TRAIN DITCHED.

Tucson, Arizona, June 1—Last night a broken rail ditched a freight train of seventeen cars near here. The train was running at a high rate of speed. The cars are badly telescoped, seven cars being in one place, occupying no more space than one car should. Loss, including cars and contents will reach $100,000.

DERANGED AND DROWNED.

San Francisco, June 1—Geo. F. Kemfrier, cabinet maker, suffering from ill health, jumped off the ferry boat into the Bay last night and was drowned.

STABBED BY A CHINAMAN.

Modesto, Cal., June 1—Quong Chung, a Chinaman, stabbed and killed Fred Alcine at Hill's Ferry. No particulars yet to hand.

A TROTTER KILLED.

Erie, Pa., June 1—Jennie C., the fast trotter, valued at six thousand dollars, was accidentally killed at the races here to-day.

DESTRUCTIVE TORNADO.

Bradford, Pa., June 1—A tornado swept over this vicinity last night, causing great destruction. At Clintonville the steeple of a church was carried half a mile away. The damage will amount to several hundred thousand dollars.

A FATAL FEUD.

Knoxville, Tenn., June 1—A battle took place between the Jones and the Green factions in Horn Creek county yesterday, which resulted in the death of two of the Green family. The feud began in January over a fence and on February 13th, one Jones family was shot by Dave Green. Since then the two families, and their respective friends, have been under arms and several battles have occurred.

A FATAL EXPLOSION.

Wyandotte, Mich., June 1—Two boilers in the Wyandotte rolling mills exploded this morning, killing two men and fatally injuring another.

COULD NOT AGREE.

New York, June 1—The jury on the trial of Kerr, one of the boodle aldermed, have disagreed.

THE DEVOURING ELEMENTS.

Selma, Cal., June 1—A large portion of the business part of the town was destroyed by fire on Wednesday night. Losses will aggregate sixty thousand dollars. Insurance thirty thousand.

FATALLY SHOT.

Florence, Ariz., June 1—Ex-Sheriff J. P. Gabriel and Joseph Phy shot and fatally wounded each other last night; it was the result of a personal feud.

NO DISAGREEMENT.

New York, June 1—3:30 p. m.—The statement that the jury in the Kerr trial has disagreed is premature. They are still out and it is believed there will be no agreement.

GEN. BIRGE DEAD.

New York, June 1.—Gen. Henry W. Birge, one of the famous commanders of the Army of the Shenandoah during the rebellion, died this morning from paralysis. He was stricken on the evening of memorial day. He was aged 58 years.

LAWYER SHOT BY A FEMALE.

Chicago, June 1—Mrs. Rawson, wife of banker Rawson, who was shot by his son Lee about a year ago, created a sensation in court this morning by firing five shots at her husband's attorney, Whitney. One bullet took effect in the lawyer's leg. Mrs. Rawson was arrested. The cause of the disagreement was in regard to her divorce suit.

The Late Mrs. Lovett's Will.

After the funeral of Mrs. Lovett this afternoon, the will was read at the residence, Blanchard street. Dr. J. D. Helmcken was made sole legatee of the estate. The property, money and effects are of considerable value, said to be in the neighborhood of $15,000.

PETERSON'S ROWING.

Observing Regular Habits—Shawnigan Lake Cannot be Excelled.

The San Francisco oarsman has changed his style of rowing since his race with O'Connor. Mr. Muirhead, writing to the San Francisco *Examiner* says: "The habit of keeping his legs close together while reaching for the stroke, as in his race with O'Connor, was condemned by the local men, and Peterson was prevailed upon to adopt the style of spreading his legs well apart, thus giving more freedom to his breathing powers. It is a well-known fact that with the legs kept close the stomach becomes cramped, and an oarsman's wind supply is very liable to be shut off at short notice. When Peterson was training for his race with O'Connor, Muirhead noticed the defect in the former's stroke and way of handling himself in the boat, but at that time Muirhead was interested in O'Connor and offered no suggestions. Now that Muirhead has Peterson under his care he is taking more interest in pointing out the many little drawbacks in style that Peterson adopted years ago, not knowing that they were to his disadvantage.

In a letter to the sporting editor of the *Examiner*, Mr. Muirhead states that he is pleased to note great improvement in Peterson's pace since he abandoned the cramp method of rowing. His style is now much easier, more graceful, and there is not that sudden lull in speed now between strokes that there was when Peterson rowed on San Francisco Bay. At first, Mr. Muirhead says, it was quite difficult for Peterson to change the position of his legs so quickly, and for several days he required much encouragement, but when at last he saw and felt the advantage he worked more earnestly. Peterson takes two rows each day. The first thing in the morning he is given a cold water bath, and then after a breakfast, consisting of fresh eggs, a rare steak and several slices of toast, he takes a walk of several miles, accompanied by his trainer. Returning to the boat house about 10 o'clock, he launches his boat for a row, generally doing about eight miles of easy rowing. After his row he is rubbed down and a short walk brings him to his hotel where dinner is had. Pete has given up the use of beer, ale and porter with his meals, using nothing but tea and water. After dinner he takes a rest, and then a sharp walk to the boat-house. He is again rubbed down by his trainer and prepared for his afternoon row, generally going out about 3 o'clock and taking a slow, leisurely spin of about ten miles, finishing the last two at a clipping pace. After a thorough rubbing with bay rum he returns to the hotel for his evening meal, consisting of a very large-sized steak, dry toast and tea. After supper he generally writes a few letters and reads the *Examiner*. This completes his day's work, when he retires for the night, never later than 6 o'clock.

Peterson is observing more regular habits in his training for this race than ever before. He is of the opining that Shawnigan lake, where the race will take place, as a boating course could not be excelled, as the entire race from start to finish will be rowed in full view of the spectators, and the water is protected from high winds by the surrounding mountains.

Paine, his opponent, is training at the same place. His mode of preparation is somewhat similar to that of Peterson's, only that his practice on the water is not of such long duration, as he seldom takes a row of over four or five miles.

MUTINY ON SHIPBOARD.

The Men Refuse Duty and Almost Lose a Ship Valued at $150,000.

At six o'clock this morning the British ship Silverdale, in tow of the American steamer Pioneer, arrived in Royal Roads. The vessel sailed from Port Discovery some days ago, loaded with lumber for Melbourne. On Wednesday information was received at Port Townsend that the crew mutined off Cape Flattery. They anchored the ship in eight fathoms of water and refused to work. By hard work the Captain and a few men raised the anchor from the bottom, drifting and sailing to Tatoosh, when a telegram was sent for assistance. Capt. Smith, of the tug Pioneer, immediately proceeded to Tatoosh with ten men and brought the vessel to Royal Roads. Application was made to Sir William Wiseman, of H.M.S. Caroline, for assistance but it could not be rendered. The Silverdale's captain was referred to the Provincial Police. Supt. Roycraft was called on and, not having enough officers, he applied to Supt. Bloomfield for three city officers. This application was not granted as the officers cannot be sent outside the limits. Later on a number of specials, Provincial Officers Langley, Miller and Flewin boarded the ship and brought the rebellious crew ashore. They were locked up in the Provincial gaol. Capt. Smith states that it was a miracle which saved the vessel whilst at anchor off Cape Flattery. For two days she lay becalmed and when he took her in tow the weather became very thick. For twenty-six hours he stayed by the ship knowing that a number of lives with a vessel and her cargo valued at $150,000 were in his charge. After bringing the vessel safely to anchor in Royal Roads, the Pioneer came into the harbor and ran on the rocks opposite Laing's wharf. The Silverdale was towed into Esquimalt harbor this afternoon by the Pilot. The crew in gaol number fifteen.

The Signor in Trouble.

It appears that the divorce suit in which he is involved is not the only trouble Signor Enrico Campobello—which being translated into English means Mr. Duncan Campbell, from Campbellton, Argyleshire, Scotland—has on hand. The Signor visited this city some weeks since, and on his way to the Golden State's capital held concerts at different parts after leaving Victoria. The celebrated baritonist, after reaching San Francisco, was wanted by the police, as several charges had been preferred against him from various parts of the State. He was identified and arrested on the charge of having borrowed $25 from B. Decekal, treasurer of the theatre company in Fresno, in payment for which the Signor gave him his cheque, but as there was no funds to the credit of so distinguished a personage as Campobello, Decekal was left minus his money. Bonds were given for the appearance of the Signor when his trial was called.

No Dividend.

A cablegram from London on Thursday says: The Hudson's Bay Company is paying no dividend this year, owing chiefly to the poor prices obtained at the fur sales. Seventeen shillings per share was paid last year.

A COMMENDABLE MOVE.

An agitation is being started in Toronto looking to the pulling down of the barbaric fences which surround so many dwellings and beautiful grounds in that city. A fertile field exists in Victoria for a movement in the same direction. Here we have lovely gardens and lawns hidden from view in a barbaric fashion. It has always been a mystery to us why so many of our residents should be so fond of being in an inclosure resembling a jail more than a beautiful home. There are many exceptions but the rule is certainly to hide flowers, shrubbery and lawn behind an ugly, unsightly board fence. Victoria is eminently a city of flowers. To tourists, as well as a large portion of our citizens, gardens and lawns are a source of attraction as well as enjoyment. The grounds of CAPT. IRVING, Mr. JOE HEYWOOD, Ex-MAYOR BETHUNE and the flower gardens of many in Victoria and vicinity at present are sources of much enjoyment for passers by. Let all those who surround their gardens with a barrack fence take the hint and have these replaced with open or picket fences. In many cities in the east there are no fences whatever. For long stretches on certain streets house after house is passed with its beautifully kept lawn and flower plots—not a vestige of a fence is to be seen. In those cities animals are prohibited from running at large, as are also all kinds of fowl. There no stock is taken in jail-like enclosures.

A CHIEF JUSTICE LIBELS JOURNALISM.

Chief Justice BEGBIE, of British Columbia, says the Toronto Globe of the 25th May, in commenting recently on a libel case, vituperated the journalistic fraternity unjustly, because without discrimination. The burden of his charge was that newspaper men are often brutal and malevolent in attacking individuals or in republishing from other papers items of the profession, is as grossly unjust as would be an assertion that judges generally take advantage of their privileges to be calumnious, or that lawyers are mostly abusive pettifoggers. It is true that there are among journalists some few coarse-grained men who give pain unwittingly; some few bold, vituperative ruffians who write malevolently "on principle," and some few who have the very spirit of the assassin without even his good courage. But much the same might be said of some few members of the honorable profession of the law. There are lawyers who habitually misuse their privileges to browbeat and to inflict injury and pain. Just so there are journalists without respect enough for themselves to give due respect to others. But that sort of journalist and that sort of lawyer are not fairly to be spoken of as types of their professions. TENNYSON'S "public fool" of "frantic love and frantic hate" has been pretty nearly eliminated from the modern daily press. In Canada, or say in Ontario, there are few newspaper men who do not maintain a reasonable air even when they cannot but display just anger, and there are still fewer who do not earnestly try to keep out of their prints anything of a wounding nature. Of course, in dealing with the acts of public representatives, large liberty to denounce wrong and wrong-doers must be taken by and allowed to journalists. But hostile criticism of the representative very seldom becomes vindictive attack of the man in his private capacity. This sort of ferocious brutality is practised only by the few unprincipled mercenaries who, taking service with this party or that indifferently, endeavor, by truculent writing for each set of temporary masters, to earn their gratitude, yet gain only that universal contempt which is due in part to their knavery, and in part to the stupidity of their imagination that any cause can be efficiently defended or advanced by the controversial methods of crapulous hoodlums.

THE PRESIDENTIAL CONTEST.

Our friends beyond the 49th parallel are at present greatly exercised over the Presidential election which takes place next November. The American political machine is a great institution, and as it is already in motion much interest has been awakened in regard to its movements. Conventions are being held, delegates selected and cards generally arranged, all pointing to one event, that of making one of their citizens a President. The Republican party had a strong hope that BLAINE would consent to become a candidate, but a recent letter from that gentleman to Mr. WHITELAW REID of the New York Tribune dispells any expectations his friends may have entertained. The letter is from Paris and dated the 17th of May. He positively declines to accept the position. Next to BLAINE rises the name of GRESHAM, whose stock in the Republican camp is high. But nothing definite will be known until the assembling of the Chicago Convention this month.

There can be little doubt that President CLEVELAND would be the strongest candidate whom the Democratic party could place in the field. He was a strong candidate when he was put forward, and his election, bringing back to his party the control of national affairs, has left upon them a debt of gratitude. On the whole his career in office may be thought to have strengthened rather than weakened his chances in another Presidential contest. His party are disposed to re-nominate him, and the question which naturally arises, as the Democratic National Convention is shortly to meet in St. Louis, is, will he consent to be again a candidate? There is some natural prejudice against conceding a second term to any President however successful and free from objection may have been his conduct of public affairs. But these objections have been met and overcome on previous occasions, in the cases of WASHINGTON, JEFFERSON, MADISON, MONROE, JACKSON, LINCOLN and GRANT. In the case of Gen. GRANT a third term was even seriously contemplated by his admirers, but the plan did not ripen into success. The presidents who secured a second term were, generally speaking, either men of distinguished abilities, or who had rendered signal service to the country. Yet, even such claims were not always recognised by the people, and it will be recalled that the two ADAMSES failed to secure a second election though nominated a second time. Mr. CLEVELAND, himself, formerly shared the conviction that a second term ought not to be conceded, and the journals opposed to him now quote, with emphasis and repetition, his official deliverance on the subject as was evidenced by his message, in which the following occurs: "When we consider the "patronage of this great office, the "allurements of power, the temptation to retain place once gained, "and, more than all, the availability "a party finds in an incumbent "whom a horde of office-holders, with "a zeal born of benefits and fostered "by the hope of favors yet to come, "stand ready to aid with money and "trained political service, we recognize in the eligibility of the President for re-election a most serious "danger to that calm, deliberate and "intelligent political action, which "must characterize a government by "the people."

The foregoing paragraph puts the case as against a second term very clearly and strongly, and would seem to bind Mr. CLEVELAND, unless he has since greatly changed his opinion, not to allow himself to be again nominated. But his friends will no doubt make a strong effort to overcome his objections, while the Republicans, who fear him as a strong candidate, will venture to make the most of his past deliverance on the subject. It is to be remarked, however, that the Republican party did not see any objection to the re-election of LINCOLN and GRANT, and therefore have little standing ground in their own history from which to oppose Mr. CLEVELAND'S re-election. Meanwhile there is a deep interest all around in the secret of the President's intentions as to the future.

Rev. Dr. Talmage is quite correct when he denounces six-day walking matches as senseless, brutal and demoralizing, but he is wrong in some of his reasons. For instance, he says it is no proof of superiority to outwalk another man, for a horse, a panther or a dog could do that. Natural history is considerably wrenched in making such statements.

Dr. Barnardo, who makes a comfortable living as a professional philanthropist, greatly deplores that Canada should have resolved to cease giving money to aid in bringing out the street waifs and gutter snipes of England and Canada. So far as this country is concerned, it is probably safe to allow the professional philanthropist to keep on deploring. We are getting to be quite big now, and if we don't know what is good for us, the Doctor need not worry or lose any sleep. We're all right.

In the Imperial House of Commons Mr. Peter McLagan, M. P. for Linlithgow, carried a motion for a return by the British House of Commons in connection with the Scott Act in Canada, showing (1) the scope of the Act; (2) the area which it covers; (3) the counties and cities which have adopted it; (4) whether any compensation was paid when the drink-shops were closed, and if so, what amounts were paid; (5) the effect on crime and pauperism in those cities and counties where the Act had been in force for more than two years; and (6) how many contests have taken place under the Act, and in how many places has the Act been repealed and drink-shops reopened.

In addition to his many other remarkable qualities the Hon. Mr. Gladstone is very methodical and exact in the manner in which he goes about his daily work. This is the great secret which enables him to get through an amount of work which would frighten ten ordinary men. It is owing to the possession of this quality that he is able, in the midst of his arduous parliamentary toil, to write articles, treating of such diverse subjects as the poems of Homer, the early Christian Fathers and modern theology. As a trifling instance of Mr. Gladstone's curious habits of precision, it may be mentioned that he rarely opens a parcel without untying—not cutting—the string, tying it carefully up, and putting it away for future use in a drawer which is reserved for that purpose. His papers and documents are also kept in scrupulous order by himself, so that he can lay his hand on any one of them at a moment's notice. It is to this habit of doing so much of his work for himself that the mastery of detail, which Mr. Gladstone shows on every subject with which he grapples, is in a great measure due.

Those who are under the impression that the lands of the United States are all taken up labor under a misapprehension. The Secretary of the Interior, at the request of the Senate, has sent to that body a long report upon irrigation of the desert lands of the west. Experts of the interior department estimate that there are about 1,000,000 square miles of desert land that can be irrigated, which at present are not valuable, and can be used only at certain seasons of the year for pasture land. At the valuation put upon the lands by the United States of $1.25 per acre, this 1,000,000 square miles of land would be worth $800,000,000. The department estimates that if these lands could be irrigated, they could be sold for $30 per acre, which would amount to $19,200,000,000. The report enters at great length upon a discussion of storing the water and building canals for the purpose of irrigation of this waste land. The report regards the work as feasible.

CAPT. (?) BILLINGER

Of the British Army a Notorious Humbug—Antics in San Diego

Although San Diego's land boom has burst, the southern city by the sea has a social lion over which society circles there are much excited. The rector of St. Paul's Episcopal church in that city, the Rev. Mr. Restaric, has been entertaining a guest, supposed to be a Captain in the British Royal Artillery named Capt. Billinger, who was claimed to be "one of the most brilliant and interesting of men" which ever visited that city. Ready of tongue, the Captain carried the rector, vestry and parish by storm, receiving the usual invitations to parties, dinners, and from mammas to meet their daughters. He was also invited to deliver a lecture on the Holy Land and the sacred places in the East. In his description of these countries he was the central and most daring figure. There were few days during his journey when the Captain did not kill his Arab, and few hours during his stay here that he did not bag an admirer. He was equally at home with tales of thrilling adventure in Australia, India and elsewhere, and declared he carried eleven bullets in his person. Said he: "I have the cross of the Legion of Honor, the Victoria cross, the Black Eagle of Germany and the Blazing Star of Persia. I also have a diamond decoration encrusted with blood—that of my own and my commander's—which has never washed off. It was in the Crimea, during the charge of the Light Brigade. My Colonel and myself were far in advance of the squadron, he somewhat in the lead. Seeing that he was about to be captured by Russians I dashed to his aid and we both fell, pierced by bullets. My blood mingling with his stained the star on his breast. With his dying breath he bequeathed me the order, and I shall carry it to my grave." And yet, with all his adventures, they were told so modestly and with such apparent reluctance that none thought him an egotist.

But the scene soon changed. The mask could be kept on no longer. He is now an active member of the chain gang, a self-confessed petty thief, and may daily be seen with pick and shovel working with other prisoners excavating the cellar for the new City Hall in California's southern boom city. His Piccadilly collar is wilted, his patent leathers soiled and his Derby dusty, but his manner is as choice and refined as of yore. He was watched and spotted as an hotel thief. Around the Coronado Beach hotel he was playing the part of an amateur photographer, and getting away at a lively rate with the silverware of the hotel, especially the dessert and teaspoons. He was caught in the act by a detective to whom he confessed his guilt. His past history, which has been partially developed, reveals him to be Henry Brown. He recently finished a five years' term in the Wisconsin State Prison for forgery. In 1884 he spent a few weeks in Victoria where he was lionized for a season. From here he went to Portland and thence to San Francisco, where he passed himself off as Capt. in the Hussars. Other titles were assumed by him in several cities, where he was equally successful in social circles until accumulating debts of borrowed money made it convenient for him to move to pastures new. But he reached the end of his tether, as will all frauds and humbugs sooner or later. Of this class Victoria is not entirely free. Look out for 'em.

THE CITY AUDITORS.

TO THE EDITOR OF THE TIMES:

SIR,—This morning's *Colonist* intimates to the public that the gentlemen appointed by the City Council to make a special audit of the corporation books, for the past six or seven years, have refused to accept, "deeming the remuneration too small." Probably the persons elected by the Board of Aldermen belong to the old school class, who imagine that accountants were educated at one period only in the world's history, and that was at the very time they served their apprenticeship, and that their individual services are absolutely necessary for the proper performance of the work; and the value of their labor cannot be appraised by common City Aldermen. My opinion is, Mr. Editor, that there are scores of competent persons in the city who would be glad to accept the offer made to these gentlemen, and perform the duties to the satisfaction of all. Persons who have had as much experience in account keeping as those appointed, and accustomed to more hours of work per day, would complete the job in much less time. If our City Guardians would call for applicants for the work, and amount of remuneration expected by such applicants, all applicants to be accountants, I believe that one-half the amount voted would be found sufficient. A. VICTORIAN.

A Warning.

The modes of death's approach are various, and statistics show conclusively that more persons die from diseases of the throat and lungs than any other. It is probable that everyone, without exception, receives vast numbers of tubercle germs into the system and when these germs fall upon suitable soil they start into life and develop, at first slowly and is shown by a slight tickling sensation in the throat and if allowed to continue their ravages they extend to the head, causing catarrh. Now all this is dangerous and if allowed to proceed will in time cause death. At the onset you must act with promptness; allowing a cold to go without attention is dangerous and may lose you your life. As soon as you feel that something is wrong with your throat, lungs or nostrils, obtain a bottle of Boschee's German Syrup. It will give you immediate relief.

THE NEW HOSPITAL SITE.

To the Editor of the Times:

Sir,—Acting under instructions from the Victoria Ministerial Association, under date the 23rd March, 1888, I forwarded to the Secretary of the Jubilee Hospital Committee, for the consideration of the committee, a memorial regarding the site of the proposed Jubilee Hospital, the same being withheld from publication as an act of courtesy to the committee until it should receive their consideration. I am now instructed by the V. M. A. to hand to you a copy of the letter received in reply from the committee and also a copy of the memorial, with the request that as a matter of public interest you will publish the same in your columns. On behalf of the V. M. A., I am also instructed, to point out in addition to the reasons assigned in the memorial, the impossibility of securing, except at great expense either water or drainage, which ought to make the committee hesitate ere they finally commit themselves to the site on the Cadboro Bay Road. Yours truly,

J. E. Starr,
Sec'y V. M. A.

Victoria, May 31st, 1888.

THE MEMORIAL.

Having learned that the Jubilee Hospital Committee may reconsider at an early date the question regarding a site for the proposed Jubilee Hospital, the Victoria Ministerial Association beg most respectfully to represent to the Jubilee Hospital Committee the inconvenience of the site already selected, and at the same time in the interests of the public to urge for the reasons following the very great desirability of selecting a site nearer the centre of population:

1. The site already selected is so far distant from the business centre of the city that in case of accident the removal thither of the injured would involve a great deal of pain and possibly danger.

2. The distance of the site already selected will in all likelihood stand in the way of the Hospital being largely patronized, because in case of accident and certain kinds of diseases, neither the patients themselves nor their friends, nor the attending physicians would feel warranted in incurring the risk of removal.

3. The distance to be travelled, besides consuming a good deal of the time of the board of attending physicians, must occasion them much inconvenience and at the same time may possibly prove detrimental to the interests, not only of the patients they are attending but also of the hospital itself.

4. To people having friends in the hospital whom they desire to visit the distance must occasion, if not expense, at all events weariness and inconvenience.

5. A number of the ministers of the city for years back have been holding religious services, at the request of the inmates, in the Royal Hospital on Sabbath afternoons, and since the organization of the Victoria Ministerial Association its members have assisted, and are now engaged in affording the inmates of the Royal Hospital the privilege of attending a regular religious service on Sabbath afternoons, and in case similar services are conducted at the Jubilee Hospital, as also for the purpose of visiting the sick and attending funerals, the site already selected, should it remain the final choice of your committee, will involve great labor, expense and inconvenience.

6. The hospital buildings and grounds, were they situate nearer the centre of population, would prove an ornament to the city and a source of interest to visitors, while in so placing them your committee would only be following the practice in vogue in English, American and Canadian cities; *e. g.*, London, Manchester, New York, San Francisco, Montreal, and Toronto.

On behalf of the Association,

E. Cridge, President.
J. E. Starr, Secretary.

To the Jubilee Hospital Committee, Victoria.

THE REPLY.

Victoria, B. C., May 18, 1888.

Rev. J. E. Starr, Secretary Victoria Ministerial Association, Victoria:

Dear Sir,—Your letter and memorial of the 23rd March were duly placed before the general committee at their meeting on the 15th inst., and in reply I am instructed to inform you that the site on the Cadboro Bay Road for the new hospital was purchased and paid for some months ago, the plans have been fixed, and the erection of a building thereon commenced forthwith. The committee cannot therefore comply with the wishes of your memorial.

Several months were spent in searching for a suitable site nearer the city without success, and it is much to be regretted that those who now object to same did not come forward at the time and assist the committee with advice and suggestions. The fullest publicity was desired and the committee have acted to the best of their ability.

I cannot but think that many of the difficulties which now appear to perplex your committee will be easily dispelled when the new institution is finished and in good working order.

I am, Rev. sir,
Yours faithfully,
William M. Chudley,
Hon. Secretary.

A Huge Casting.

The sternpost of the San Francisco "Cruiser No. 5," which was cast, and, so far as known, successfully, at the Union Iron Works, San Francisco, on Saturday, will weigh something more than 21,000 pounds, exceeding the weight of the sternpost of the Charleston by 6,000 pounds. Something like 30,000 pounds of molten steel was run into the great mold constructed in the floor of the casting room, which allowed, of course, for a considerable overflow, which is always deemed advisable. It will take fully a week to cool the great mass of iron sufficiently for examination, but so far as known the casting was successful.

CATARRH AND LUNG TROUBLE.

Drs. Darrin—Dear Sirs:—I have been a sufferer from catarrh for ten years. It got so bad last fall that I was declining into consumption and did not expect hardly to live the winter through. I finally went under your electro-magnetic treatment and now as a result of your skillful and scientific treatment I am most entirely cured of my lung trouble and catarrh, and have gained in flesh and strength, and have improved in every way. I gladly recommend any one who may need your services, and can be referred to at Duwamish, King Co., W. T.

Frank Donovan.

CATARRH AND RHEUMATISM.

Mr. Editor, Dear Sir:—I have been troubled with a very bad and offensive catarrh for ever since I was a child. I treated with a physician 10 years ago for it, but derived no benefit. Having heard of the wonderful cures of Drs. Darrin I placed myself under their Electro-Magnetic treatment. Now, after a thorough four weeks' treatment I am almost entirely cured of my troubles. Rheumatism does not pain nor cripple me as it did. Nor the catarrh with its disagreeableness etc., and I cheerfully recommend the suffering humanity to their mode of treatment, which has proved decidedly beneficial in my case and others that I know of. I can gladly be referred to at 2613 Third street, Seattle, W. T.

Harvey Moss.

OFFICE HOURS AND PLACE OF BUSINESS.

The Drs. Darrin are located at the International Hotel, Cherry street, Seattle, W. T. Consultation free. They will under no circumstances take a case that they are positive that they cannot cure or benefit. Charges are reasonable and the poor treated free from 9 to 10 a. m. Tuesdays and Saturdays.

Office hours, from 10 a. m. to 5 p. m., evenings 7 to 8; Sundays 10 to 12.

They cure permanently all diseases of the genito-urinary organs and make a specialty of deafness and catarrh, and also treat successfully all diseases of the nose and throat, eye and ear, as well as all acute and chronic diseases of whatever nature, if curable. No cases taken if not.

Most cases can receive home treatment after a visit to the doctors' office.

Inquiries answered and circulars sent free.

(The Drs. Darrin also have a branch office at 235 Fifth Street, Portland, Or., where any in that vicinity can consult them.)

—The good opinion of the public, in regard to Ayer's Cherry Pectoral, is confirmed by clergymen, lawyers, public speakers and actors. All say it is the best remedy for affections of the throat and lungs. *

—Neither mind nor body can act healthfully, if the blood is vitiated. Cleanse the vital current from impurities by the use of Ayer's Sarsaparilla. This remedy purifies the blood, recruits the wasted energies, and restores health to the debilitated system. *

A Success.

The big closing-out sale of Messrs. Ferguson & Co. is meeting with an unlooked-for success. All hands are being kept very busy from early morning till very late at night, and Mr. Ferguson tells us their country orders are a week behind in filling. It is quite evident that low prices are appreciated by the Victoria public.

Jeffreys-Lewis Next Week.

Jos. M. Mount, the well-known theatrical manager of the Pacific Coast, arrived here last evening in advance of this great emotional actress. The lady will appear here next Friday and Saturday evenings (playing a matinee Saturday), June 8th and 9th, producing three great plays, "La Belle Russe"—her own creation of this character; for the matinee, "East Lynne," and her last performance and appearence will be as "Clothilde," her latest success.

A Dangerous Hole.

Mrs. James Haughton, who resides on View street, fell into a hole in the sidewalk on Simcoe street last night and received a very severe wound on the face. The hole was fully two feet deep, and when the lady and a young girl who was with her stepped into it they fell forward heavily, Mrs. Haughton's face striking the rough planks. Her cheek was cut and has since swollen to a large size. There is, we believe, little doubt about the liability of the corporation for damages sustained in this way.

DROWNED IN THE POOL.

A Citizen of Calgary Meets Death at Banff Hot Springs.

Mr. James McMurtry, a merchant of Calgary, accompanied by Jas. Grierson and A. C. Stirret, visited Banff on the 24th of May, and in the forenoon went to bathe in the pool. Messrs. Grierson and Stirret completed undressing first and went into the water and swam towards the opposite side, leaving their companion to follow. The pool is about 30 or 40 feet across, and when the further shore was reached they swam a considerable distance around the shore, thus having their backs toward the spot where they left their companion, who they expected was following them. Presently Mr. Grierson, in turning around, cast a glance to see where his companions were, missed Mr. McMurtry and asked Stirrett if he had seen him. As he was not to be seen both men started back and in crossing the deepest part of the pool observed the body lying on the bottom, face downwards, in about nine feet of water. The body was dressed and taken to a house and it was deemed proper that an inquest should be held. Accordingly Coroner McGinnis, M.D., empanelled a jury to enquire into the causes which led to death. After viewing the body they took the evidence of Messrs. Grierson and Stirrett, who gave the circumstances as published above. Two boys testified that they were passing near the "Basin" and saw the three men start into the water, one of them being behind the others. He took a "header" from the platform diving into the water as they were passing along. They did not wait to see whether he rose or not, but the position in which the body was found would indicate that he never came to the surface again. It is said that Mr. McMurtry was affected with nervous paralysis, and it is thought that when he made the sudden plunge into the water the shock to the nervous system caused immediate death. The late Jas. McMurtry was born in South Marsh, Carleton County, Ont., about sixteen miles from the city of Ottawa.

Inquest to be Held.

The decomposed body of a man was found at Sooke some days ago, and the remains were buried near the locality. Officer Campbell had the body taken up and an inquest will be held to ascertain the cause of death and everything connected with the unknown man.

Spying Out the Land.

Mr. Allan, a big fruit dealer of Goderich, starts on Monday for Manitoba and the Northwest to examine the capacity of the soil for fruit-raising, and also to see if he cannot graft or unite the Ontario apple trees with those in the Northwest for fruit-raising. It is understood he makes the visit at the request of the government. He will very probably visit British Columbia.

The C. P. R. Mortgage.

An Ottawa dispatch of Wednesday states the mortgage contemplated by the act of the last session of Parliament, entitled "An act respecting certain agreements of the Government of Canada and the Canadian Pacific Railway Company," submitted for approval by the Privy Council to-day, was, after some slight amendment, adopted. It will be submitted to the approval of the shareholders of the company at a special meeting to be held at Montreal.

Seattle and Spokane Falls.

The contract recently let on the Seattle, Lake Shore and Eastern Railroad, embraces 225 miles and the sum exceeds $5,000,000, and is the largest contract ever let in Washington Territory. Fifty miles of the road from Seattle eastward is finished. Fifty miles from Spokane westward is well under way, and it is to be finished by September 1st. The 225 miles just let is the gap between these two sections, and it will take two years to finish it. The total length of the road is 325 miles.

Will Not Get Sympathy.

Says the San Francisco *Examiner*: No sympathy will be felt for the owner of the British sealing schooner Walter L. Rich if he should lose his vessel. He has come around from Nova Scotia prepared for a fight. He has 27 men, two cannon and 50 repeating rifles, and announces his intention of making it warm for any United States cruiser that may interfere with him. We can feel for men driven away from their accustomed fishing grounds under a disputed claim of authority, but when a person deliberately sails 20,000 miles to hunt for trouble, he deserves and is likely to get it.

Inspecting Old Buildings.

Yesterday afternoon Alderman Vigelius, chairman of the Fire Wardens, accompanied by Ald. W. Wilson, Building Inspector P. J. Leech, and the Chief Engineer of the Fire Department, inspected a number of rookeries throughout the city, with a view of removing the dangerous nuisances, which are a menace to the surrounding property and likely to cause serious conflagrations. Amongst the places visited were the wooden buildings on Fort street, above Douglas, near Philharmonic Hall; the buildings on Wharf street, adjoining the Occidental Hotel, and an unsightly pile over the Johnson street ravine, facing the Colonial Hotel.

A NOTED TRAVELLER.

Projected Journey of J. Seton Karr, of London, Across the Continent.

J. Seton Karr, an English traveller and author of considerable distinction, is now in Portland on his way to this city. From here he will start on an arduous journey he has undertaken, that of crossing the continent within the arctic circle. He probably may fall in with Lord Lonsdale, who is engaged in the scheme of coming to the Pacific or Arctic sea coast from the east. Mr. Karr has commissions from the London *Times* and *St. James Gazette*, and will illustrate his observations by sketches. He will commence his journey from Cape Fox, and then proceed to Duncan's colony of Indians at Metlakahtla, which is north of the Skeena river. After reaching this point he will proceed across the Rockies to Danvegan, a colony of the Hudson Bay Company, composed of crofters and paupers sent out by charitable societies. But little is known of these colonies, and Mr. Karr is specially instructed to investigate the condition of these settlements. He will then proceed to the Mackenzie River, and trace it to its source, particularly observing the resources of the country. He says the Hudson Bay Company's policy has been to suppress news and information regarding these regions, as they desire to retain the monopoly of the fisheries, hunting and Indians. He expects to return by next November. The last peregrinations of this traveller were confined to Northern India, having just returned from that place on the City of Peking. He had passports from the Indian, Chinese and Afghanistan Governments to inspect the immense plateau known as the Great Pamir, a large table land in which three mountain ranges meet in a focus, the Himalaya, the Hindoo Koosh and the Altai. This table land is regarded as the true gate to India, and Mr. Karr states that the Russian Government is endeavoring to gain possession of it. It is on these lands where roam the ovis poli, a species of sheep whose horns measure five and six feet in length. He would have taken the journey, but the Indian Government which, furnished him with presents for the chiefs of the dangerous Tartar tribes which inhabit these almost inaccessible regions, refused to allow him to publish to the world the discoveries he might make. On these terms he abandoned the expedition and conceived the idea of his present journey. Speaking of Cashmere, Mr. Karr characterizes it as the dirtiest place he ever visited. The natives manufacture in secret their famous shells, and refuse to divulge the method of their wonderful weaving. They are manufactured out of goat's hair and not sheep's wool.

"PROFESSOR" MENZIES.

Left the City on Thursday Morning—A Few More Incidents.

THE TIMES representatives have learned that "Professor" Menzies left for the Mainland yesterday (Thursday) morning, after reading the damning evidence of his guilt in the previous evening's issue of THE TIMES. He went on board the steamer at 12:30 Thursday morning, and occupied the lower berth of room 29, which he took possession of immediately after going on board. As a general thing the versatile "Professor," while travelling to and fro on business connected with his railway and steamer "guide" was very fond of introducing to his fellow passengers the subject of magnetism, when he would dilate on his own gifts of the mysterious power. But on Wednesday night he slunk away to his stateroom, and did not leave it again until the steamer was approaching the dock at Vancouver. At that city he boarded the New Westminster train, where he arrived in the forenoon. As before related the Chinese girl Loi Ho was taken by Menzies, under the disguise of a young klootchman, to New Westminster some time ago, since when all trace of her was lost. It is supposed that she was either spirited across the border, or, what is equally probably, that she was then placed in safe-keeping at Westminster. In either case there can be little doubt that Menzies has gone to where she is, and by this time is safe on the American side, where he will endeavor to sell his chattle for anything he can get for her, the value being anywhere from $800 to $1500, according to the demand.

If we have laid before the public and police information which justified an "investigation," or would warrant the detention of Menzies, it will be in order to enquire why he was allowed to leave the city. We have reason to know that no inquiries were made at the steamer—certainly not at the proper quarter—to ascertain if the "Professor" intended skipping out. It was quite easy to find him, and if there had been any anxiety to "investigate" the charges of THE TIMES and fasten the crime upon the miserable wretch, Menzies ought to have been detained. The *Colonist*, which awoke this morning to a realization of the importance of the subject, expresses surprise that the facts were not laid before the police. The TIMES laid the matter very fully before the police on Wednesday evening, and Menzies was still in the city at midnight—six hours after Chief Bloomfield asked the Council to hold an investigation. An "investigation" of the steamer between 12:30 and the time she sailed would have resulted in the capture, if such were desired, of the culprit.

Mr. E. J. Salmon writes to a contemporary to say that Menzies did not approach any officer of the Jewish congregation in reference to the question of marrying the girl to a Chinaman; and we believe Mr. Salmon is correct. Our information was that Menzies had consulted a member (not an officer) of the Jewish congregation, but in the hurry of writing we inadvertently used the wrong word.

There will, perhaps, be more about these shameful transactions, when we will have something further to say about them.

Mothers!

Castoria is recommended by physicians for children teething. It is a purely vegetable preparation, its ingredients are published around each bottle. It is pleasant to the taste and absolutely harmless. It relieves constipation, regulates the bowels, quiets pain, cures diarrhœa and wind colic, allays feverishness, destroys worms, and prevents convulsions, soothes the child and gives it refreshing and natural sleep. Castoria is the children's panacea—the mother's friend. 25 doses, 35 cents. mr 21 3m.

PERSONAL.

Richard F F Campbell, Liberal member for the Ayr burghs, of Scotland, is dead.

At the first glance no one thinks Miss Jennie Flood even common good looking. When it is whispered that she is worth $5,000,000 everybody can see how beautiful she is.

Mr D E Brown, of the C P R, is in the city. He reports traffic in both freight and passengers, as far in excess of last year and continually on the increase. The Sound trade is assuming gigantic proportions.

Mr Fred Shakespeare left this morning for Kansas City, Mo, via Portland, Ore. He goes to attend the annual session of the International Typographical Union as a delegate from Victoria Union No 201, the first ever sent from this province.

Mr A M Nanton, of the legal firm of Messrs Osler, Hammond & Nanton, Winnipeg and Toronto, is a guest at the Driard. Mr Nanton is in the province at present in the interest of eastern capitalists. He is one of Winnipeg's most popular and promising men of the near future.

Mr Samuel Robertson, a well-known citizen and private banker of Harriston, Ont, is dead. He was a prominent business man in North Wellington for a number of years, and was a brother to the Warden of that county, and well-known to many in this province.

At the Clarence:—D W Gordon, Nanaimo; J W Folson, Salt Spring Island; A Taylor, Morrison, Ill; C W McKay, Mrs J H Mann, Tacoma; Mrs M C Ernst, Black Diamond; Mrs J Klotz, Detroit; John G Collins, Bonaparte; J F Mount, Manager Jeffrey Lewis Co, O Fletcher, Quebec.

Dentistry.

Attention is directed to the card of Drs. T. J. and T. Harry Jones, dental surgeons, whose operating rooms are in the Bank of British Columbia building, Government street. The junior of the firm has lately graduated from the Philadelphia Dental College and Hospital of Oral Surgery, where he stood sixth on the list of honorable mention students who took the special certificate on anaesthesia and anaesthetics, for the session of 1887-8, in which class there were a couple of dozen students. This college is admitted to be the best dental school on the continent, if not in the world. Its students must be well up in applied anatomy, chemistry mechanical and operative dentistry, philosophy, dental pathology and therapeutics. The firm is now composed of father and son. In their operating rooms are to be found the latest, and most approved design in operating chairs. A couple of these are handsome models and complete in their mechanical construction. To so great a perfection has the dentistry profession been brought that teeth can now be extracted without causing the least pain, and instantaneously. The vast practice enjoyed by Drs. Jones is proof of the excellence of their work and the satisfaction the same gives their numerous patrons.

Rev. Dr. Lyman Abbott has been elected permanent pastor at Plymouth church, Brooklyn, and first regular successor of Henry Ward Beecher.

Seventeen hundred pages of Dominion voters' lists are already set up. Forty-five printers are at work. The task will be finished in December.

Hon. T. W. Anglin has been appointed as Ontario representative at the Centennial Exhibition to be held at Cincinnati this summer.
